AMENDMENT

ASSISTANT COMMISSIONER FOR PATENTS
WASHINGTON, D.C. 20231

SIR:

In response to the Office Action dated June 28, 2001, please amend the above-identified patent application as follows:

IN THE CLAIMS

Please amend Claims 1-17 as shown in the marked-up copy attached. A clean form of the amended Claims 1-17 is as follows:

1. (Amended) A high voltage resistance, comprising:
at least one support and a flat conductor with length L , width ℓ and thickness e fixed to the support and with a given resistivity ρ ,
wherein the value R of the resistance being equal to $\rho L / \ell e$, the value of the length L , width ℓ , and the thickness e being defined such that a mass of the flat conductor resists electrical arcing without exceeding a given temperature.
